National Library of Wales

The National Library of Wales, Aberystwyth, is the national legal deposit library of Wales and is one of the Welsh Government sponsored bodies.

It is the biggest library in Wales, holding over 6.5 million books and periodicals, and the largest collections of archives, portraits, maps and photographic images in Wales.

Work to resurface the public access around the building using Flexipave began in Spring 2021.

**SPECIFICATION:
230m² of KBI Flexipave
in Elegant Green
Installed at 35mm**

The entrance footpath was previously a slippery stone surface, which created safety issues for visitors arriving and departing the building.

The client was extremely happy with the outcome, particularly as the installation was carried out at short notice just in time for the library to re-open after the winter lockdown.
